20.000+ hours

DIMMABLE

Not dimmable

LIGHT SOURCE

E27 included (replacable)

WEIGHT

1.8KG

LIGHT COLOR TEMPERATURE

3000K

IMPORTANT SAFETY INFORMATION:

1. Always turn off the power at the circuit breaker or fuse box before starting installation.
2. For safety and to ensure adherence to local electrical codes, it is recommended that a qualified electrician or experienced installer complete the installation.
3. Handle with care, as the bamboo material is fragile and requires careful attention during setup.

INSTALLATION

- Switch off power at the main circuit breaker.
- Use the provided screws to securely attach the ceiling plate, making sure it is level and capable of supporting the 1.8KG weight.
- Connect the fixture wires to the ceiling wires: black (live) to black, white (neutral) to white, and green/yellow (ground) to the ground wire. Secure all connections with wire connectors.
- Attach the bamboo fixture to the mounted ceiling plate.
- Adjust the cord to your desired length (up to 120 cm) and ensure everything is tightly secured.
- Install the provided E27 LED bulb (replaceable).
- Turn the power back on and test the lighting.

ADDITIONAL TIPS

- Maintenance: Wipe the lamp gently with a soft, dry cloth to keep it clean. Avoid using harsh chemicals to preserve the bamboo material.
- Light Temperature: The fixture emits a warm 3000K light, providing a cozy and welcoming glow that's perfect for any room.
