50.000+ hours

DIMMABLE

Not dimmable

LIGHT SOURCE

E27 included (replacable)

WEIGHT

1.4KG

LIGHT COLOR TEMPERATURE

4000K

IMPORTANT SAFETY INFORMATION:

1. Ensure the power is switched off at the circuit breaker or fuse box before installation.
2. For safety and to comply with local electrical codes, it is recommended that installation be carried out by a qualified electrician or experienced installer.
3. Handle with care. The metal and glass components are delicate and require special attention during installation.

INSTALLATION

- Turn off power at the main circuit breaker.
- Secure the ceiling plate using the provided screws, ensuring it is level and can support the weight (1.4KG).
- Connect the fixture wires to the ceiling wires: black (live) to black, white (neutral) to white, and green/yellow (ground) to the ground wire. Secure the connections with wire connectors.
- Attach the metal and glass fixture to the mounted ceiling plate.
- Adjust the cord to your desired length (up to 150 cm) before tightening securely.
- Install the included E27 LED bulb (replaceable).
- Restore power and test the lighting.

ADDITIONAL TIPS

- Maintenance: Regularly clean the lamp with a soft, dry cloth to remove dust. Avoid using harsh cleaning products to protect the metal and glass materials.
- Light Temperature: The lamp emits a neutral 4000K color temperature, ideal for bright and balanced illumination in any space.
